

QUALITY, FOOD SAFETY, DEFENSE AND ENVIRONMENTAL POLICY

E01.02-PL01

The business model of Vegenat, S.A. is based on the manufacture and marketing of food products, offering by principles innocuous, legal and authentic products, which meet the specified quality, taking care that the resources are used with the perspective of sustainable development and, by placing those products on the market at a fair price, promotes human well-being.

The principles of action of the Company, that guide all the activities, are included in the Quality, Food Safety, Defense and Environmental Policy as follows:

The Company's Management is committed to:

-Assume the premises of mission and business vision as fundamental reference points to design business strategies, and helps in decision –making.

-**Provide the means to manufacture safe and innocuous products** based on legal requirements established in the current regulations and in accordance with the specified quality, as well as take responsibility towards its customers. This commitment is based on the evaluation, management and compliance of the HACCP system established for each type of product, as well as on the implementation, continuous evaluation and maintenance of its Food Defense plan, related to people, processes and facilities.

-**Comply with current Environmental legislation**, as well as other environmental requirements that it voluntarily subscribes, seeking a continuous reduction in the weight of containers / packaging placed on the market, as well as anticipating trends and changes that may occur in this area.

- **Planning and prevention as a method of obtaining quality and respect for the environment, instead of retrospectively.**

-**Adaptation of the Quality parameters** to the changing needs of the market, which requires encourage the maintenance of a continuous effort of data monitoring, measurement and analysis. In the same way, it is intended to be a benchmark of quality at regional, national and European level.

CUSTOMER FOCUS

-**Focus on customer service** in order to pursue customer satisfaction and have mutual benefit as a common goal; be able to build confidence; continuous improvement of products and services, thus responding to current and future needs.

-The Management shall provide the necessary resources to increase customer and / or stakeholder satisfaction to maintain their trust.

SUSTAINABILITY

- Active and decisive contribution TO THE ACHIEVEMENT OF SUSTAINABLE DEVELOPMENT GOALS, promoting a social culture aimed at raising the awareness of its stakeholders and identify concrete actions in the field of mitigation and adaptation that ENSURE COMPLIANCE WITH THE AGENDAS AGREED IN THE GLOBAL COMPACT BY THE UNITED NATIONS. For this, Vegenat S.A. has a SUSTAINABILITY MANAGEMENT MODEL that makes it possible to improve resource management, optimize investments, fair trade and people's development.
